### Court Day.

A very large crowd was in town Monday, and business with the merchants was reasonably good. There was quite a lot of stock on the market, but few sales were made. A great many mules were on the streets, some of which were sold at fair prices.

### Much Sickness.

There never has been so much sickness in the community as at present. The troubles from colds and la grippe. We are told that some parties have even sent to neighboring towns for physicians, because "there is so much sickness among the Lancaster doctors (?)".

### Married in Mississippi.

W H Ward received a telegram Wednesday saying Grover Ward had married Miss Rue Barrier, daughter of Dr Barrer, of Rolling Fork, Miss. Mr Ward is well known in Lancaster and has many friends who extend congratulations.

### Two Sudden Deaths.

A colored woman, named Alice Leavel, dropped dead in Joseph's store Monday morning. She was in apparent good health, but gasped once or twice and fell to the floor, expiring within three or four minutes. Another colored woman, the wife of Harry Kaufman, died suddenly Tuesday morning from the effects of tonsillitis.

## Farm and Stock.

Lime is frequently needed to insure success in an oats crop as well as in other grain crops. There are thousands of acres of fertile land that are sour and fail to make good crops, when by thorough preparation and a few hundred pounds of lime a great change would be seen. In many instances where the yield of oats was not satisfactory and the lime was properly administered, the result has been highly profitable.

Paris Kentuckian says that contrary to the usual scale of prices in Bourbon county clover hay is bringing more remunerative prices than the timothy article. On the Paris market the former is selling in the baled form at about \$14 per ton, while the latter is commanding \$11. Timothy hay, in the rick and stack, where it is not damaged by weather, is selling in the field at \$8.50 to \$9 per ton.

The "Dog Committee" of the legislature has agreed on a bill, the gist of which is: "That each head of a family shall be allowed to possess one dog upon which no tax shall be collectable. Each additional dog, however, shall be liable for a poll tax of fifty cents. The money accruing from this dog tax shall be turned into the county treasury, instead of to the State Auditor, as at present. After the cost of damages to sheep has been paid out of it, the excess shall be divided to the schools or good roads, whichever the fiscal court may believe needs it most.

Capt William Hicks, who resides on Barren river, in Barren count, tells of a remarkable profit on a lot of orchard grass seed sowed by himself. Last year he sowed forty acres in orchard grass. On this land he pastured his sheep and lambs up to May 10. He then took them off and from same land cut a ton to the acre, for which he received \$20 a ton. He also threshed 10 bu per acre of orchard grass seed for \$1.50 per bushel. Outside the pasture for his sheep, Capt Hicks realized \$1,400 off his 40 acres grass. His stand of orchard grass this season will be better than last year. Litchfield Gazette.

J J Peed sold his farm of 250 acres two miles south of Millersburg, on the Maysville turnpike, Wednesday afternoon, to Mr Henry Letton, near Carlisle, for \$115 per acre. This is one of the best farms in Bourbon, was purchased by Mr Peed in 1889 from the estate of the late Jesse Boulden at \$85 per acre.—Paris Kentuckian.

We are asked to publish "the conditions and cost of having a horse registered." In reply will say that it depends on what breed of horses you refer to. There are a dozen or more horse registers in the United States, each having their own rules and regulations. For instance, saddle horses, trotting horses, Morgan horses, Ger-

man Coach and a number of other breeds of heavy horses. The secretaries of any of these associations will give you the desired information if you will write them. Col I B Nall, Columbia Building, Louisville, Ky, is Secretary of the American Saddle Horse Association.

**What Is the First  
Law of Nature?**

"Self preservation is the first law of nature," answers Johnny Jones.

Correct, Johnny. Go right up to the head of the class. This law applies to a community as well as to an individual. Under the severe operation of this law a town that does not take care of itself, that does not look after its own interests first, that does not look out for Number One, soon falls into a bad way.

That's just as sure as shootin'. It's the law.

We must obey the law or take the consequences. If

we in this town and community do not work together for our own good, the mutual good of all of us, in all lines of business, we have only ourselves to blame if the place slides down the inclined plane instead of climbing the golden ladder of prosperity and progress.

For instance, if we do our retail trading with big city stores that have no interest in us except to get our money and keep it, local trade must suffer and shrink, town property values and farm land values must decrease—and there you are!

Johnny Jones, who knows the law, is a wise lad, but how about his papa and mamma?

Do they obey the first law as applied to the old home place? If they don't, Johnny may have to apply the law to himself when he grows up. He may have to go to the city to make a living.

Let's all think it over.

### Tobacco Growers, Attention!

Having been asked several times the question, "will you insure tobacco for me this year? I want to state that so long as the condition remains as it is now in Garrard county, I will, but only for those who place their entire property in the company they ask to carry the hazardous part of their risk, for it is hardly fair to ask one company to take the worst part of the risk or that which some other agent cant handle. Assuring all my patrons who want to have their tobacco insured, I am willing to protect them.

### Physicians Cure Skin With Simple Remedy.

Noted Eczema Specialist Comments on a Proven Specific for Skin Diseases.

Physicians everywhere continue their praise for ordinary oil of winter green in a wonderful specific for Eczema and other itching skin diseases. This liquid, pure, and clean as water, externally applied has instant effect. A few drops on the burning, itching sore causes instant relief, and a short continued use gives a complete cure.

Dr C B Holmes of Silver City, Miss. is so enthusiastic about this remedy—D D D Prescription—that he declares in a letter to the D D D Company of Chicago that this great remedy is as near a specific for Eczema as is quinine for malaria. "I have been using your D D D for four years with gratifying results," writes Dr Holmes.

There are thousands of other physicians who use D D D Prescription, the oil of wintergreen specific. D D D cures and it is so clean to use. If we did not know what D D D will do we would not recommend it to our friends and patrons.

## Doctored for Five Years

Here is a boy whom D. D. D. Prescription cured quickly of Eczema--and at a total cost of \$3.00--after all other remedies and many doctors had failed.

Read this letter from a grateful parent:

Dr. D. D. D. Prescription, Chicago, Ill.  
Dear Sir:--I am writing to you to say that your D. D. D. Prescription has cured my son of Eczema after five years of suffering and many doctors had failed. I am writing to you to say that your D. D. D. Prescription has cured my son of Eczema after five years of suffering and many doctors had failed. I am writing to you to say that your D. D. D. Prescription has cured my son of Eczema after five years of suffering and many doctors had failed.

We do not know who was Mr. Moore's doctor, but we do know that a great many of the best physicians have overcome their former prejudice and now advise their patients to simply get D. D. D. from the drug store at \$1.00 a bottle. You will agree with us that credit is due these physicians for thus sacrificing the larger fees they could make by writing out their own prescriptions.

## Eczema Sufferers!

Will this convince you? Or will this at least influence you enough so that you will investigate further? Investigation is all we ask. Investigation will prove to you that this pleasant external liquid--D. D. D. Prescription is based on the only scientific principle of curing the skin through the skin by killing and dislodging the Eczema germ.

The case of Herbert Moore is but one of hundreds, yet thousands. REMEMBER WE GUARANTEE THIS REMEDY BEFORE ACCEPTING THE AGENCY IN OUR HOME TOWN. Knowing that D. D. D. will cure any kind of skin trouble, whether Eczema, Warts, Boils, Itch, Psoriasis or other skin diseases--we have decided to recommend it in preference even to our own prescriptions.

## Cough Caution

Never, positively never poison your lungs. If you cough--even from a simple cold--you should always: heal, soothe, and ease the irritated bronchial tubes. Don't blindly suppose it with a coughing mixture. It's strange how some things finally come about. For twenty years Dr. Shoop has constantly warned people not to take coughing mixtures or prescriptions containing Opium, Chloroform, or similar poisons. And now--a little late though--"Overseas" says "Put it on the label. If poisons are in your Cough Mixture." Good! Very good! If you have a coughing mixture, and others, should insist on having Dr. Shoop's Cough Cure. No poison marks on Dr. Shoop's label--and none in the medicine, else it must be law be on the label. And it's not only safe, but it is said to be by those that know best, a truly remarkable cough remedy. Take no chance then, particularly with your children. Insist on having Dr. Shoop's Cough Cure. Compare carefully the difference. No poison marks there! You can always be on the safe side by demanding

## EVERYBODY HAPPY.

Everybody's happy as far as I can see. Though when it comes to reasons we are bound to disagree. Folks that talk prosperity are happy for the cheer. That comes when crops are loomin' up in plenty far and near. Happy 'cause the country's got materials 'an' men. To take whatever starts out wrong 'an' set it right again; Happy for the present, which is all we're regret. An' happy for the future, which is lookin' better yet.

Of course, we don't pretend that life is all a grand, sweet song; But folks can't sing forever; they are bound to tire 'fore long. But there's room for everybody in this big old world of ours. An' those that like the briars, they kin easy dodge the flowers. There is always some one comin' out stirrin' up a row. That will bring a peasin' wrinkle to the most contented brow-- An' some of us is happy 'cause the blessin's fall so thick. An' some of us is happy 'cause we've got a chance to kick.

## RUSSIA FOR CHRIST.

Mission of Baron Woldemar Ukkull to His People in the Dark Lands.

One of the most interesting speakers at the last Northfield conference, says the Record of Christian Work, was Baron Woldemar Ukkull of Russia. The baron was converted from infidelity in middle life, and is now fired with the great purpose of having the gospel proclaimed broadcast throughout the Russian empire.

He declares that the need in that dark land to-day is appalling. He calls it the largest unevangelized field in the world. He says that in all Russia there is not a single training school for evangelic ministers; while in the vast territory of Siberia there is no gospel minister. He has come to America to raise \$100,000 to establish in his native land a training school for ministers and Christian workers on the lines of the Moody Bible institute in Chicago. The baron is president of the Baptist Union in Russia and a vice-president of the World's Baptist Alliance. He is accompanied by his wife, who is a charming woman.

During the Northfield conference the baron told the story of his conversion, and also of the present religious condition and needs of Russia. He was brought up on the large family estate in Esthonia, but found no real peace or satisfaction in life until he accepted Christ as his personal Saviour. Some time after his conversion he was baptized in his own castle by one of the peasant Christians, and he became a member of the peasants' church. At their request he then became pastor of their church, and now devotes time and money to the interests of the work.

## THE MINISTER'S SALARY.

General Move to Increase the Amount to \$1,000 or More.

Reports from religious gatherings in all parts of the country indicate that the minister's salary is receiving deserved consideration. The laymen are coming to recognize the heroism of the devoted men who give their time and thought to the church for salaries of four, five or six hundred dollars a year, and are manifesting a commendable disposition to remove the necessity for the continuance of such unnecessary sacrifice. The sustentation committee of the Rock River conference of the Methodist church reported at its meeting in Chicago that it had decided to make an effort to raise enough money so that no minister might receive less than \$1,000 a year, and the laymen of the conference at their own meeting adopted by acclamation a resolution favoring the increase in salaries. The Methodists are especially active in this fall in the matter. The Chicago Tribune has received reports from ten conferences in Illinois and neighboring states at which the subject was discussed and the opinion expressed that unless quick action were taken there would be a dearth of preachers. What may be regarded as an extreme illustration of the present tendency comes from the Des Moines conference, held at Council Bluffs, Ia., where it was reported that 37 of the 217 pulpits are vacant because of the insufficient salary, whereas ten years ago there were ten more preachers than pulpits in the conference.

Orphan Girls Remembered. Of the many wonderful things in the world, few if any are more wonderful than the manifestations of the care which God takes of the helpless. There was a splendid illustration of this care, exercised through human instruments, in the will of the late Robert N. Carson of Philadelphia. Mr. Carson bequeathed an estate worth \$5,000,000 for purpose of founding and maintaining a college for orphan girls between the ages of five and ten years who have neither father nor mother. They are to receive such training as will fit them for a life of usefulness, and are then to be discharged at the age of 18 or less. The girls are not to be dressed in uniform, but are to be allowed the exercise of some degree of individual taste.

Busy. "Are you working hard these days?" asked one New Yorker. "Yes," answered the other. "I haven't seen you at the office." "No; one day I've been busy getting my money out of the bank for fear the financiers would get it, and the next I've been busy putting it back for fear the burglars would get it."--Washington Star.

Violation of Contract. A young Irish matron, who was a believer in the variety that is the spice of life, surprised everyone by bringing her inoffensive spouse. When questioned by the sedate judge for cause for legal separation, she said: "When Mike married me he swore he would die for me, and--and he hasn't died yet!"--Judge.

Why Should He Go? "I have seen London," said the speaker, waving his left arm, "I have ridden through the streets of Paris; I have stood among the monuments of Berlin; I have feasted my eyes upon the beauties of Vienna. I have gazed upon the eternal hills of Rome, and I—"

"Yes," interrupted a man in the gallery, "but I'll bet you \$40 you've never seen Main street in Scrubgrass, Pa."—Chicago Record-Herald.

She and the Chancellor. "Having been introduced to the venerable chancellor, the beautiful maiden looked at him curiously for a moment and then, just to start the conversation in the right direction, asked: "Don't you find it awfully trying to have to chance when you don't feel like it?"—Chicago Record-Herald.

Ask Yourself the Question. Why not use Chamberlain's Pain Balm when you have the rheumatism? We feel sure that the result will be prompt and satisfactory. One application relieves the pain, and many have been permanently cured by its use. 25 and 50 cents sizes. For sale by F. P. Frisbie. 1m

FEARED THE WORST. With straining eyes the pale-faced man watched the advancing policeman through the window. No sooner had the bluecoats reached the porch when, with trembling fingers, he drew a heavy revolver from his pocket and pressed the muzzle against his throbbing temple. Before his nervous fingers could pull the deadly trigger his faithful wife dashed the weapon aside.

"John, John!" she gasped, don't! They've only come to summons you for a jury.

"If that's the case I'll submit peacefully," answered the man, wiping the cold sweat from his brow. "But I'll die before I'll shovel the snow off that walk!"—Judge.

The Old Quarrel. "You live on Puget sound, do you? Why, so do I. Finest country in the world, sir," said the passenger with the closely cropped beard. "To see the sun rising over Mount Tacoma—" "You mean Mount Rainier, I presume," interrupted the passenger with the shaggy eyebrows. "Yes, sir; life out there is one long—"

"No, sir," I mean Mount Tacoma! I might have known from your looks that you're one of those Seattle pugs that—"

"Just the same, you ignoramus, every schoolboy knows it's Mount Rainier!"

Bang!—Chicago Tribune.

Why He Felt Good. Seaver—What in the name of all that is laudable makes Sweetson feel so good?

Weaver—Why, he just won ten dollars on a bet.

Seaver—Won ten dollars, did he? There's always some brainless sucker ready to part with his hard-earned cash betting on a proposition which any child with brains enough to blow a whistle would know was certain to be beat. What consummate ass did Sweetson make that ten dollars off of?

Weaver—Why, he—er—won it off me.—Judge.

Agreed with Him. Parishoner (a little the worse for liquor)—I hearth you preazh las' night.

New Minister—You didn't hear much, I fancy.

Parishoner—Thaz what (hic) I thought myself.—Judge.

Unfortunate. I met a legless man one day. A poor unfortunate, who begs from everyone who goes his way. A railroad train cut off his legs. "Oh, luckless, legless man," I said. "Your plight my soul with pity fills; Your legs are gone"—I bowed my head—"However do you foot your bills?"—Detroit Free Press.

THOSE GIRLS AGAIN. Jack—Do you girls really trust each other?

Dollie—Of course we do. Ethel just told me she was in love with you. She confided in me because she knew I wouldn't tell!

Advice. This generous view in which we live with good advice keeps men awake. "Be something that all love to give. And no one really cares to take."—Washington Star.

Fate's Perversity. "Did you see where a girl was stricken blind in New York while playing the piano?"

"That just shows how perverse fate is even with its afflictions. Why couldn't it strike with deafness the people who have to listen to girls playing the piano?"—Baltimore American.

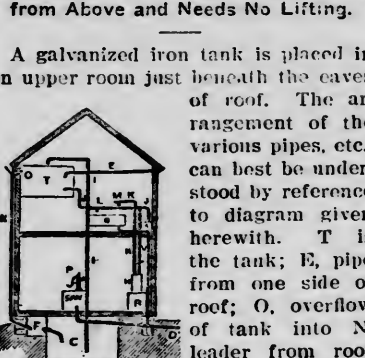

In and Out. "I tell you," bellowed the street corner orator, "there are two sides to this question of reforming people by imprisoning them!"

"You bet!" muttered Tufford Knutt, who was leaning against a lamp post. "I've tried both sides of it lots of times."—Chicago Tribune.

A RAIN-WATER SYSTEM.

A Pure, Inexpensive Supply Comes from Above and Needs No Lifting.

A galvanized iron tank is placed in an upper room just beneath the eaves of roof. The arrangement of the various pipes, etc., can best be understood by reference to diagram given herewith. T is the tank; E, pipe from one side of roof; O, overflow from tank into N, leader from roof to cistern; C, cistern; I, pipe from cistern to tank, by which tank may be filled when rains are not frequent enough to do it; P, pump at kitchen sink; R, range; H, hot-water tank; J, pipe from large tank supplying cold water for bathroom and for hot-water tank; B, bathtub; A, closet; L, cold-water faucet; M, hot-water faucet; V, waste pipe from bathroom; D, soil pipe leading to cesspool away from house.

The cut is made in this way merely to show the different parts. The various fixtures should, of course, be located according to the construction of the house, arranging things so as to take as little pipe with as few turns as is practicable.

The pump is used for the water supply in the kitchen. Being a double-acting pump, one can, by changing the shut-off, pump water from the cistern to fill the upper tank.

The filter, F, is not entirely necessary. By having an aerator attachment to the pump, and by taking the precaution to turn out the first water that falls after a dry spell, the cistern will be quite satisfactory. It should be cleaned out two or three times a year.

Not counting the cistern (which is usually already present) the materials, says the Farm Journal, would cost something as follows (labor not included): Galvanized iron tank, \$5; bathtub, \$5; hot-water tank, \$5; pump, \$6.50; one and one-half inch galvanized iron pipe and three-inch cast-iron pipe to cesspool, about \$30; traps, vents, etc., perhaps \$10.

The soil pipe to the cesspool should have a good fall so as always to run clear of obstructions; it should be trapped and vented in the best manner. The fixtures in the house should also be trapped and vented—a plumber will explain all such details not shown on diagram. Without traps and vents sewer gas is likely to get into the house and poison the inmates. Cheap, poorly connected plumbing is worse than none—it is continually getting out of order and menacing health. Get a first-class job.

FERTILITY OF SOIL

Science of the Growth of Plants Should Be Understood by Farmer.

A. R. Whitson of the Wisconsin station says: Directly or indirectly the food of mankind comes from the soil, and there is, therefore, nothing more important in agriculture than that the factors which determine the productivity of the soil be thoroughly understood. This bulletin is written for the purposes of putting before the farmer a statement of our present knowledge of the factors which influence the fertility of the soil and of the relation of these factors to each other.

The agricultural plants require for growth a favorable temperature, light, and a supply of material including carbon dioxide, water and certain chemical elements derived from the soil. The chief of these elements are nitrogen, phosphorus, potassium, calcium and magnesium. Since oxygen is used at every point of the plant where growth takes place, it is needed at the roots of the roots, and therefore soil must be aerated. All these conditions are dependent on the climate, the physical and chemical conditions of the soil, and on various changes going on in the soil.

ALL AROUND THE FARM.

Have you a good supply of seed corn? The indications are that seed corn of first class quality will be very scarce next spring.

Don't drive the boy off the farm into a store or shop. Arrange the farm work so he will like it.

Don't starve the heifer calf just because she is to be kept for the dairy. She should make a healthy growth all the time.

Some people believe in predestined careers. We believe in making one's career. Don't you? The farm is a good place to work one out.

Don't mix the salt with the feed. Let the stock use it as they wish.

The secret of good breeding is to have a good foundation to work upon. Don't chain yourself to a profitless cow.

Soil and Keeping Quality of Apples. Investigations of the apple soils of California have shown that there is a close relationship between the keeping qualities of the apples and the various kinds of soils on which they are grown. This is very important and should prove of great value to apple growers in planting new orchards.

DEATH IN THEIR OCCUPATION.

Makers of Mirrors Poisoned by the Vapor of Mercury.

Every mirror is made at the cost of human suffering and poisoning. The silvering of the glass by applying a layer of tin foil alloyed with mercury involves so much risk of poisoning, the work people constantly breathing the mercury vapor, that numerous attempts have been made to use another metal for the purpose.

It was shown by Liebig that a fine adherent deposit of metallic silver could be applied to glass by reducing a solution of a silver salt with milk sugar, so this method has been employed as a commercial process. There have been partly successful attempts to get a like deposit of copper.

The mirror often lacks brilliancy and is usually disfigured with stains. But it has been found by one F. D. Chattaway of England that solutions of copper salts can produce brilliant reddish films of metallic copper which are as perfect reflectors as silver mirrors. His method of coating glass with a layer of copper, it is thought, will probably be used extensively in making mirrors and other glassware articles.

FOUND A CURE FOR INSOMNIA.

One Sufferer Testifies That Deep Breathing Helped Him.

"I have been troubled with insomnia all my life," remarked the nervous man, "and like most people similarly afflicted I have tried all the familiar dodges to induce sleep. The results were never particularly satisfactory. In the way of producing the desired effect until one night I thought I had actually found a sleep-inducer when I chanced to grasp one of the rods at the head of my bed with both hands and practically hung the weight of my body on them. That sent me to sleep and it did the same thing for a few times, when to my extreme disappointment, I found it had ceased to work."

I was as badly off as recently, until one night, when I had a bad cough, as well as an attack of sleeplessness. I tried the well-known remedy of trying to send myself off into the land of nod by taking long deep breaths. What it did to me, and has done several times since, was not to only send me to sleep, but to stop my cough. Just why it did so is not of much consequence. That it did so is the thing that concerns me most."

Russia's Great Library.

One of the greatest monuments to the memory of that benevolent despot, Peter the Great, is the imperial library of Russia, established by him in 1714. Present ranking places it third among the world's great libraries. It is preceded by the National library of Paris and that of the British museum of London. It contains 1,500,000 volumes and 26,000 manuscripts. The most important accession it ever received was probably at the time of the suppression of the Society of Jesus in Russia, when most of the Jesuit collections were transferred to the imperial library. Among them was the famous collection of Count Zaluski, consisting of 200,000 volumes and 10,000 manuscripts. The most important manuscript in the library is the "Codex Sinaiticus" of the Greek Bible, brought to Russia by Prof. Tischendorf in 1859 from the convent of St. Catherine on Mount Sinai.

Red-Haired Charmers.

"There are no red-haired old maids." The speaker, a red-haired actress, lighted a fresh cigarette and went on.

"The red-haired have an excess of iron in their blood. This causes them to overflow with vitality, animal spirits, gaiety, wit, charm—but I must not boast, must I?"

She smiled, and smoothing her ruddy locks with a slim white hand, she added:

"At any rate, it is a palpable fact that the red-haired girl never gets left. As a rule she is married at 20. A red-haired old maid is a greater rarity than a millionaire anarchist. Leap year begins with 1908, but we red-haired girls have no need of leap year."

Tinfoil Valuable.

Several of the best-known chocolate manufacturers on the continent are advising customers not to throw away the tinfoil in which the chocolate is enveloped, but to keep it until called for by an agent, who will gladly pay the market price for it. The present high price of tin is due to the action of English and Dutch speculators, who have forced it far beyond its actual value. The chocolate industry in Europe spends nearly \$4,000,000 annually for tinfoil, which is generally thrown to the winds.

Impudent Boy.

"Mamma," asked Tommy, "what year were you and papa married?"

"In the year 1906, dear," answered Mrs. Hunter.

"Was that a leap year?"

"I believe it was."

"Why, mamma, did you have to—"

"No, I didn't, you insolent little rascal!" interrupted his indignant mother. "And I've a great mind to spank you for thinking of it!"

A Literal Youth.

"Why, Johnny," said Mrs. Muggins, "what are you doing here? Is Willie's party over?"

"None," blubbered Johnny. "But the minute I got inside the house Willie's father told me to make myself at home, and I came."—Harper's Weekly.

MAKES LIFE MISERABLE

Troubles That Keep Half the Local Doctors Busy.

Half of the prescriptions the local doctors write are for troubles that result directly from a weakened stomach. Strengthen the stomach muscles, increase the secretion of gastric juices, and you will find that constipation, indigestion, with its headaches, dizziness, depression of spirits, spots before the eyes, nervousness, sleeplessness and general debility—have been over come.

From new on build up the stomach and aid the stomach with Dr. Shoop's Restorative. You will soon find yourself strong and never know the meaning of indigestion. If you have a cough or cold do not risk Pneumonia when Foley's Honey and Tar will cure you quickly and strengthen your lungs.

Remember the name—Foley's Honey and Tar—and refuse any substitute offered. Do not take chances with some unknown preparation that costs you the same when you can get Foley's Honey and Tar, that costs you no more and is safe and certain in results. Contains no opiates.

Cured After Physicians Said He Had Consumption.

E. H. Jones, Pastor M. E. Church, Grove, Md., writes: "About seven or eight years ago I had a very severe cold which physicians said was very near pneumonia, and which they afterwards pronounced consumption. Through a friend I was induced to try a sample of Foley's Honey and Tar, which gave me so much relief that I bought some of the regular size. Two or three bottles cured me of what the physicians called consumption, and I have never had any trouble with my throat or lungs since that time."

Remember the name—Foley's Honey and Tar—and refuse any substitute offered. Do not take chances with some unknown preparation that costs you the same when you can get Foley's Honey and Tar, that costs you no more and is safe and certain in results. Contains no opiates.

Cured After Physicians Said He Had Consumption.

E. H. Jones, Pastor M. E. Church, Grove, Md., writes: "About seven or eight years ago I had a very severe cold which physicians said was very near pneumonia, and which they afterwards pronounced consumption. Through a friend I was induced to try a sample of Foley's Honey and Tar, which gave me so much relief that I bought some of the regular size. Two or three bottles cured me of what the physicians called consumption, and I have never had any trouble with my throat or lungs since that time."
